Monday 3<sup>rd</sup> June 2019

Dear Year 5 & 6 Parents/Carers,

Children in Years 5 and 6 have a very exciting opportunity to develop their Science, Technology, Engineering and Maths skills with a bridge building workshop that is visiting our school on Wednesday 19<sup>th</sup> June.

The workshop will be run by Civil Engineers from a construction company and a design and engineering consultancy. The children will construct a 13m long cable-stayed bridge which they will be able to walk across. They will learn about health and safety, and work together as a team. They will also be challenged to construct a bridge out of K'Nex, spanning 30cm and to be able to support the heaviest weight possible.

There is no cost involved, but we do ask you to return the attached consent form from Mott MacDonald as they wish to take photos and videos for the advertising of their services and on their website.

Yours sincerely,

Mrs Harwood  
Design and Technology Co-Ordinator

*Did you know you can donate funds for the school via ParentPay*
